Ref No. 1-0022011
January 3, 2011

[illegible]

His Excellency
BENIGNO SIMEON C. AQUINO III
President
Republic of the Philippines
Malacañang, Manila

Dear Mr. President:

Greetings and salutations to you and your good office.

We are the umbrella organization of non-life insurers and reinsurers, majority of whose members are small-and-medium-sized companies, catering to the insurance needs of individuals, enterprises, and corporations nationwide, and we write this formal Letter of Appeal to bring to your kind attention our current – and apparently, future – plight, brought about by the Department of Finance Order No. 27-06.

This DOF Order No. 27-06 prescribes graduated increases in insurance companies' paid-up capitalization, imposing a minimum of P125 million for 2010, P175 million for 2011, and P250 million for 2012.

It is, patently and without doubt, a discriminatory and unreasonable requirement, to the promotion of free enterprise amongst the small and medium enterprises which your administration strongly espouses.

Should the implementation of the DOF 27-06 take place for 2011 only the big companies shall remain, and the small-and-medium-sized insurers, meaning those with paid-up capitalization of less than P175 million will be forced to close shop and cease operations, thereby adversely affecting hundreds, possibly thousands, of employees and agents, depriving them and their own families and dependents, of their livelihood. Instead of furthering the State's policy of promoting full employment and generating sources of livelihood, it will have the opposite effect, creating even more unemployment and discontent, and running counter to this administration's plans and programs. Worse, the insured clients of the small and medium sized insurers will suddenly find themselves unduly exposed to the perils of loss or damage without adequate insurance protection following the closure of said insurers.

The government will also contradict itself, as well as send a conflicting message to the public, because while the government is pushing for the development of microfinance and entrepreneurship, it is in the same breath spearheading an initiative that will kill the very existence of the small and medium companies it hopes to develop, companies that have done well all these years. It is inconceivable how a government arm can champion the cessation of operations of companies that are running well and having no serious and legal or financial impediments, at a time when taxes are sorely needed by the government, unemployment is on the rise, and business is still on the road to recovery from the many natural catastrophes in recent years.

While DOF 27-06's intentions are noble, increased capitalization is not the sole measure of a company's stability, or of its capacity to shoulder risk, or of their ability to pay claims. There are other measures and mechanisms which can be used to ensure and determine insurer/reinsurer solvency and financial liquidity, such as the more universally-sound and realistically proportionate Risk-Based Capital (RBC) measure, which may be used in conjunction with the Margin of Solvency. An efficient regulatory system and a sound tax infrastructure can also be just as helpful.

We are, therefore, appealing to your compassion and good judgment, and seeking your intervention and understanding, in our plea for the suspension of Department of Finance Order No. 27-06, pending the passage of the Revised Omnibus Insurance Code. We hope we can have an audience with His Excellency to personally appeal our plight.

Thank you very much and more power.

Very truly yours,

MARIO C. VALDES
General Manager

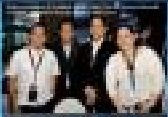
# ENTERPRISE INNOVATION FORUM

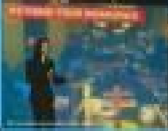
## Transforming the Future of your Business

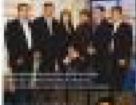
Throughout the decades, major advances in technology have helped shape and reshape the world in general and the world of business in particular. From the invention of the telegraph and the telephone to desktop computers, the Internet and mobile devices, the way business is conducted has changed dramatically. Companies today experience some kind of future anxiety, wondering what big technological breakthrough of today will become the essential business tool of tomorrow.

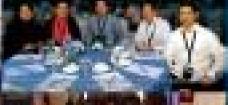
Fortunately, Philippine enterprises got a glimpse of the future during the recent Enterprise Innovation Forum held at the Hotel InterContinental Manila last 22nd of November. Hosted by Globe Business, the forum brought together distinguished thought leaders and experts from various industries. They provided insights on how companies can future-proof their businesses through innovation, and how changes in management practices, business models, technologies and solutions can aid in transforming the future of their enterprises.

The keynote address was delivered by Mike Walsh, author of Futuretainment and CEO of the consumer innovation research agency Tomorrow. During the forum, Mr. Walsh was able to share unique and valuable insights into the growing influence of new markets on breakthrough innovation and business transformation. This was followed by a panel discussion on how innovation has played its role in the local business scene which also took place during the event.









The panelists were Ayala Land President and CEO Tony Aquino, [illegible] [illegible] Inc. Executive Vice President [illegible] [illegible], Mike Walsh and Globe Telecom President and CEO Ernest Cu.

Further, the Enterprise Innovation Forum gathered renowned members of the ICT industry who shared their knowledge and expertise, and featured collaborative learning through various tracks: Mobility & Work, Network & Connectivity Trends, Collaboration and Technology Evolution.

To highlight the current and emerging solutions for the growing ICT needs of enterprises, Globe Business invited experts from Avaya, Cisco, [illegible] Telecom, [illegible] Networks, HP, Huawei, IBM, [illegible], [illegible], [illegible] and [illegible], who were also sponsors of the event. They discussed relevant topics that would help enterprises leverage innovation and technology to improve their market position. In addition to the simultaneous track sessions, a vendor-led exhibit gave the participants an opportunity to interact with Globe Business and its technology partners, and discuss ways of working together to provide solutions to existing and future ICT challenges.

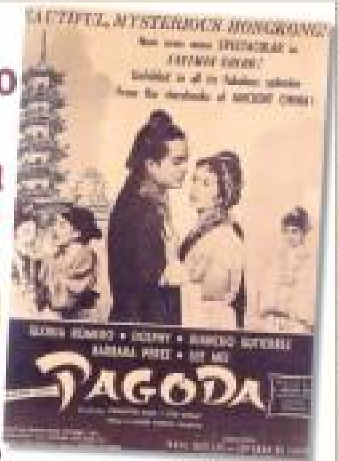
# Gloria, Juancho star in Pagoda

Remember When?
From the collection of
Danny Dolor



BEAUTIFUL, MYSTERIOUS HONGKONG!
Now seen more SPECTACULAR in EASTMAN COLOR!
Unfolded in all its fabulous splendor from the storybooks of ANCIENT CHINA!
GLORIA ROMERO • DOLPHY • JUANCHO GUTIERREZ
BARBARA PEREZ • LEE MEI
PAGODA

One of the starrers of real-life couple Gloria Romero and Juancho Gutierrez is Pagoda, shot in 1959 with 'beautiful, mysterious Hong Kong' as backdrop. It was filmed in Eastman Color to better capture the scenic spots of the Crown Colony.

Sampaguita produced Pagoda in collaboration with HK's Golden City Film Co., jointly directed by Eduardo de Castro and Wong Tien Lin.

Co-starring with Gloria and Pancho are Dolphy and Barbara Perez as well as Chinese actress Lee Mei. — BRC

# Kris: My Search is Finally Over

Everyone is on a search for something – some for fulfillment, some for purpose, and some for something else. But for one thing that everyone ultimately searches for is true love. The old saying goes that "True love waits." And for the Queen of All Media Kris Aquino, the wait and the search is finally over. She has finally found true love, not in the guise of a prince charming, but in San Marino Corned Tuna. This time around, Kris believes that true love starts with loving oneself and what better way to start but by choosing a healthy food option.

"I really believe in San Marino Corned Tuna and what it stands for - good health beyond mere appearance. I am very proud to endorse this product. For me, it's the best!" Kris exclaims.

San Marino Corned Tuna has less oil than the usual tuna flakes in oil and has lots of tuna fish that has Omega-3 DHA which contributes to having a healthy heart. Every 150g can of San Marino Corned Tuna has 1,125mg of Omega 3. Omega-3 DHA which is commonly found in tuna lowers cholesterol and blood pressure, and reduces risks of heart attack and other cardiovascular diseases.

"Who would not want to have a healthy heart," Kris says. "I am definitely recommending San Marino Corned Tuna to my family and friends. I want them to have a healthy heart too."

Among Kris' many roles – actress, host, presidential sister, UNICEF Goodwill Ambassador – her favorite is being a mother to her two sons. It is her love for them that she is now particular with what she eats. "I want to be healthy inside and out not just for me but also for Josh and Bimby," Kris adds. "I eat the right food - one that is delicious and functional. I want to live long and love more."

With a busy schedule and chaotic lifestyle, you would think that Kris no longer finds time to look for true love, that she has found it in San Marino Corned Tuna. "It didn't take me a hundred years to find true love. I realized I am surrounded by it. I want to love more. So I want to be healthy. I want to live long, especially for my kids. This is why I shifted to San Marino Corned Tuna."

"I join the millions of Filipinos who shifted to the country's number one corned tuna. My search is over. I found true love in San Marino."

> *I really believe in San Marino Corned Tuna and what it stands for - good health beyond mere appearance. I am very proud to endorse this product. For me, it's the best!*
